It's Rheem.®

- **The Heat Exchanger features a 20-Year Limited Warranty. All other parts have a 5-Year Limited Parts Warranty.**

A Look Inside

Rheem Classic® Series Model RGPN Upflow/Horizontal Super Quiet 80™ Gas Furnace

relax
It's Rheem.

Features & Benefits:

1. Super-Quiet Design. To help improve the sound quality of the Rheem Classic® Series Super Quiet 80™, we re-engineered the door and top-plate to provide a sound barrier between the furnace's operation and your home.

2. Heat Exchanger. Awarded three patents, the Rheem Classic® Series Super Quiet 80™ heat exchanger is renowned for its dependability and efficiency. It's constructed of aluminized and stainless steel for maximum resistance to rust and corrosion. And it's backed by a 20-year limited warranty.

3. Induced Draft Motor. This draft inducer, which was specifically designed for the Super Quiet 80™ gas furnace, quietly provides air for combustion while simultaneously venting outdoors the products of combustion from the furnace heat exchanger.

4. Gas Valve. The redundant gas valve is a 24-volt slow-opening valve that delivers gas in a regulated flow to the patented "in-shot" burners.

5. In-Shot Burners. The natural (or optional LP) gas is ignited by the direct spark ignition at the in-shot burners. The in-shot burner's shutter-free design requires no adjustments to regulate the air/gas mixture.

6. Direct Spark Ignition. Direct spark ignition is an extremely dependable and efficient way to light the burner. And it eliminates the need for a standing pilot. For added safety, the remote flame sensor constantly monitors the burner flame to ensure it is operating as it should.

7. Adjustable Air Speed. Thanks to adjustable controls for the blower, your technician can precisely match airflow to the specific comfort requirements of your home.

8. Integrated Furnace Control. The "Brain" of the Rheem Classic® Super Quiet 80™ is the Integrated Furnace Control (IFC) which directs all activities of major furnace components. The control features low-speed continuous fan operation and accessory terminals.

9. Easy Access Washable Filter. The Rheem Super Quiet 80™ is equipped with a permanent, washable filter that's easy to access and clean. You won't ever have to deal with the hassle and expense of replacement filters.

Limited Warranty Information

Rheem supports its equipment with strong warranties and dependable, professional service. That's why Rheem backs the Classic® Series Super Quiet 80™ gas furnace with a generous 20-year Limited Warranty on the Heat Exchanger. All other parts have a Limited Parts Warranty of five years.

Protection You Can Count On

While your Rheem equipment is incredibly dependable and covered by an outstanding warranty, you can extend your warranty coverage with Protection Plus® extended service protection. Then you can relax and enjoy the comfort of your Rheem gas furnace – without worrying about the cost of parts or labor for unexpected repairs. And when Protection Plus is purchased in conjunction with your dealer's maintenance program, you can enjoy the peace of mind that your equipment will be both maintained and repaired – as needed and without additional expense. Ask your dealer about the variety of Protection Plus plans now available. For more information, call 1-877-276-4294 or visit www.protectionplusonline.com.

KwikComfort® Financing

Ask your Rheem dealer about KwikComfort® Financing, the easy and convenient way to finance everything associated with your Rheem equipment – your original equipment, all subsequent service, Protection Plus® extended service protection, and even the comfort options you might choose to add later.
